TUESDAY, SEPTEMBER 8, 1896.

The "young blood" introduced in the management at the beginning of the present fiscal term seems to be pushing the Y. M. C. A. right along.

The Star is told that the public will learn in due time why two customs inspectors and the appraiser were summarily discharged. Due time in cases of this sort should be on the instant.

It is more than likely that those entrusted with the work realize the importance of having Nuuanu stream in trim to handle the freshets which "old pros" will tell all to "look out for about this time."

The Star is simply rich in contributions today. "S. E. B." always writes well and to the point. Geo. W. R. King develops literary talent which his most intimate friends did not dream heretofore that he possessed. Both letters are very interesting.

The local Knights of Pythias are hoping that the next convocation of the Supreme Lodge will be held at San Francisco. Indianapolis is the rival of the coast capital and of course is more central with as good ordinary accommodations. If the great meeting and encampment should somehow be located in San Francisco, the Islands will be represented by a strong and most creditable delegation.

So high an authority as the "British Medical Journal" is quoted for the charge that arsenic is largely in use in paper making for cigarette smokers. The reason is that clearness, crispness, slow burning, and yet a degree of elasticity and strength are secured. Smokers who use such paper are presently afflicted with a cough that soon becomes chronic, and symptoms resembling those of consumption early appear.

A wise decision was reached when it was decreed that there should be no drills of any description during the vacation of the volunteer companies. The boys are entitled to a complete rest. Their duties have been particularly arduous during the past six months and the business was not entirely left before that. The service will be livelier than ever all along the line after the rest. In the meantime military shooting will be the order of the day as a pastime to which many are devoted.

It is now announced from financial centers that confidence is returning on account of the foregone conclusion that Bryan and Sewall will be defeated. This may be correct, but it is peculiar. Confidence as a quantity or element is usually altogether too wary to be influenced or regulated or moved by political predictions or estimates. The fact is, though, that since the Republican campaign is opened, those \$3,000,000 of New York City 3½ per cent bonds have been sold at par with \$1,500,000 in excess offered. Massachusetts about the same time sold \$1,500,000 of state bonds bearing 3½ per cent interest. They had been refused in mid-summer. Next there will be news of the floating of the Hawaiian refunding bonds. This will be because the men who look into the matter at all will discover that island securities are gilt-edged.

THIS SEEMS SOUND.

(McKinley's Letter.)

The owner of the silver bullion would get the silver dollar; it would belong to him and to nobody else. Other people would get it only by their labor, the product of their land or something of value.

A SPLENDID BOOK.

Husted's Directory of Honolulu and the Hawaiian Islands for 1896-97 is by long odds the best issue the veteran and successful publisher has ever put out. It was the regret of Mr. Husted as it is of The Star that the book could not be printed here. In appearance and in every detail the volume is a typographical beauty. The features are numerous indeed, making the book the most complete and valuable of its

character ever served here. It is a perfect immense mine, a veritable encyclopedia of information appertaining to Honolulu and the Islands. Every portion of the group, every industry, every institution and society are given space. A fine map of Honolulu is attached to each copy. There are three views of Kilauea. Two are in single color and one is a strong red and black lithograph. The new fire alarm system is published and there is coffee data, together with a list of the sugar plantations. Nothing seems to have been omitted unless there are names overlooked. No directory can be absolutely perfect in its listing. The Husted employees were careful and are probably below the average percentage of errors. The local advertising patronage was quite liberal and the cards are well displayed and well printed. The binding is strong and the books will wear. The publishers are to be congratulated on their enterprise and speed. It is a rare thing for directory subscribers to receive books on time, but the thing has been done in this instance. The new opera house, the Irwin Grand, and other recent improvements, some yet unfinished, are prominently mentioned, bringing the book right up to date and making it a publication that all will find well nigh indispensable in business.

SUPPOSED TO BE FUNNY.

(Mavericked.)

Examining Attorney—If either counsel should say to you that circumstantial evidence unsupported by direct testimony should in no sense decide the trend of the benefit of the doubt, what would you understand by that?

Talesman—That he did not want me on the jury.

CIRCUIT COURT.

Proceedings in Several Civil Cases—One Opinion Is Filed.

In the matter of the estate of the late James G. Hayselden, Mrs. Jane Walker and H. E. McIntyre, executors, have withdrawn their respective appeals from the decision of Judge Whiting, filed the 10th of January last.

S. Kauhane has petitioned for letters of administration of the estate of the late Paele of Ewa. The estate consists of real property valued at \$500. Kauhane is a creditor. There are two heirs.

The aquarium matter was before Judge Perry in Chambers Monday afternoon. After hearing the case the court consented to sign a decree for the reformation of trust in conformity with the prayer.

In the matter of D. M. Kuewa vs. Kahalepaule, suit for recovery of a horse and damages, defendant has appealed from the decision of District Magistrate Hore of Waialua to the Circuit Court at Honolulu. W. S. Wond for appellant.

The following decree was filed by Judge Perry today: "Pursuant to the decision herein filed the petition of M. D. Monsarrat is dismissed and the above named Kathleen Douglas and Ethel Florence Monsarrat are remanded to the custody of Florence E. Dove."

NEW IRWIN BLOCK.

The contract for the new Irwin block on Nuuanu street will be let to Sinclair and Walker if certain conditions are complied with. If not, it will fall to John Ounderkirk, the next lowest bidder.

TO THE VOLCANO.

The following persons sailed by the Kinau this morning for the volcano: C. W. Tennant, F. E. Tracy and wife, H. P. Lukin, Mrs. T. A. Bouchonoff, Mrs. Strong and daughter.

NIGHT SCHOOL.

The night school opened in the Fort street school building Monday evening and effected a partial organization for the ensuing term. Nearly 200 pupils have been enrolled, many more than was expected for the opening. Mr. Lightfoot expects to have a regular attendance this year of about 400.

A Natural Inference.

"The most curious thing in the world" began Bixley.
"Hush," hoarsely whispered the horrified Junkins, with a gesture toward the door, "she's in the next room."—London Tit-Bits.

Heroes in history seem to us poetic because they are there. But if we should tell the simple truth of some of our neighbors it would sound like poetry.—G. W. Curtis.

Officers in the British army and navy, who are all of the rank of gentlemen, take precedence according to rank in their profession.

Steamers Come and Go

And it is a rare occurrence when they do not bring new shipments for L. B. Kerr. Scarcely a month passes but what some new line is added to his already large and varied stock. The latest addition is a corset department, and it goes without saying that the values to be found there eclipse all previous attempts. Ladies should take a look at the celebrated French Wave Corsets now being introduced.

Timely Topics.

September 7, 1896

This extremely hot weather is very severe on housekeepers who are without ice boxes, or perhaps an old leaky one that is worse than none at all.

The Alaska Ice Chests and Refrigerators are built on honest principals of honest materials. We have the ice chests in four sizes, from the small chest suitable for small quantities of provisions, meats and other perishable foods to the largest chest for families of greater numbers.

If you prefer a refrigerator to an ice chest the "Alaska" Refrigerator is the best in the market. Some of our competitors are making considerable noise about mineral wool lining. It is not always the opinions of experts who establish an article, but the people who are forced to use that article year in and year out. Those who have used the "Alaska" Charcoal Lined Refrigerator prefer them to those which have the mineral wool lining.

While we are on a cooling subject we will mention the "Gem" Ice Cream Freezers. These are carried in various sizes to suit small families or ice cream parlors.

Life's luxuries are what make it worth living and they are usually expensive. But Iron Baths are luxurious but not expensive. They may be made as beautiful and expensive as you wish by outside decorations, but they are all alike inside—the best.

We have a 3-4 inch garden hose that is finding a ready sale because it is the best in the market.

THE HAWAIIAN HARDWARE COMPANY.
FORT ST., Opp. Spreckel's Bank

W.W. DIMOND'S

By the Transit which arrived on the 4th inst. we received 100 Jewel Stoves and Ranges, one large car load, direct from the factory at Detroit.

This is our third shipment, and we find that we have only 4 stoves left from our previous lot.

The excellence of these stoves has already been proved by the large sale, but we will name three points:

First. Long life from the heavy high grade of iron, which is the same in the \$12 stove as in the \$50 range.

Second. Economy in the use of fuel.

Third. Quick and even bakers.

We propose leasing these stoves on the following terms:

When the stove is delivered one-third of the price is paid in cash, and the balance monthly thereafter in five equal payments.

If before the expiration of the five months, the lessee wishes to pay off the balance, he will be entitled to a discount of five per cent. on the amount unpaid.

If a customer wants to buy outright, he gets five per cent. discount on the whole amount.

Jewel Stoves and Ranges can be had only of us.

Mr. W. W. Dimond.

Ripans Tabules

Mr. L. A. Rocher is a farmer residing about three miles out of Colon, N. C. His home is somewhat in the back woods. In an interview with Mr. S. T. Godfrey, a correspondent of the Telegram and Sunday Times, Mr. Rocher on the 17th of June, 1895, said:

"I am 61 years of age, and until I was high onto fifty years old, I was always well and hearty, then for a long while and until last February, I suffered with indigestion and could not eat anything hardly at all. My daughter, who lives in the city, sent me some of Ripans Tabules, told me how to take them, and they have completely cured me. My wife is now troubled with the same complaint, and has written daughter to send some more of Ripans Tabules. I want you to tell everybody how I got cured, for it is a blessing to humanity. (Signed) L. A. ROCHER.

Ripans Tabules are sold by druggists, or by mail if the price (50 cents a box) is sent to the Ripans Chemical Company, No. 10 Spruce St., New York. Sample vial 10 cents.
